atlas-academy.ca

Atlas Academy

An academy for young ~~users~~ *builders* of technology.

Most kids can work any app in minutes. At Atlas they learn what is happening underneath, and how to make it themselves. Small classes, real projects, serious instruction.

TRACK I · 6 LEVELS

Intro to Software Engineering

From a blinking LED on a Raspberry Pi to building their own AI agent at Level 6.

TRACK II · 4 LEVELS

3D Modelling & Animation

In Blender, students model, rig and animate their own original characters. No art experience needed.

- ★ **Taught by industry engineers and designers** working at EA, IBM and Confluent.
- ★ **No copying steps off a screen.** Students work out why something works, then build it.
- ★ **No homework. No extra screen time.** Real learning, done in class.
